Can you help us improve?

We are inviting ScORSA members to participate in a [short evaluation survey](#). We hope that the survey will help us to better understand the needs of member organisations regarding advice and resources associated with the management of occupational road risk. The survey is being conducted by [Research Scotland](#) on behalf of ScORSA as part of our evaluation activities this year.

We would very grateful if you could take a few minutes to fill in the survey.
